

# Auction Recording Solutions

Easy Recording

Easy Reporting

Easy Transcribing

**The Problem:** The auctioneer is the key player in successful auctions. They provide the dynamic balance between consigners and potential buyers to ensure that each party gets the best value results from the auction. Occasionally consigners or buyers are not satisfied with the auction result and make claims to the auctioneer. The Auctioneer needs a record to verify the results of the auction.

**The Solution:** Record Solutions delivers an Auction Recording Solution, based upon Veri-Core's Digital Recording Suite. The Auction Recording Solution provides audio and video evidence of the auction results to prove the validity of the auction.

## **The Configuration:**

- Veri-Core Uni-Scribe digital recording software.
- Microphones and audio interfaces to capture the audio
- Video interface and camera with appropriate mounting

**When it comes to the Record . . . *Easy Does It!***
