

COOP Service Solutions

Easy Recording

Easy Reporting

Easy Transcribing

The Problem: Continuity of Operations Planning (COOP), according to FEMA, “includes the activities of departments and agencies to ensure that their essential functions are performed.” COOP Authority, which applies to the Federal Executive Branch and guides the Legislative and Judicial Branches, can and should be adopted for State and local agencies. COOP is a good business practice that enables agencies to continue essential functions across a broad spectrum of hazards and emergencies, including natural, manmade, technological and national security situations.

The Solution: Where COOP essential functions include preserving the record of live events after the onset of a hazard or emergency, Record Solutions offers a comprehensive COOP Service solution. This solution ensures the agency will be able to comply with test, training and exercise requirements and support continuity of operations for a COOP event.

When it comes to the Record . . . *Easy Does It!*

Record Solution’s team of recording, reporting and transcribing specialists have years of experience preserving the record. Contact our expert sales team at 732-625-1318!

The Record: *Delivered!*
