

Municipal Recording Solutions

Easy Recording

The Problem: Municipalities have multiple recording needs. Current budgets don't allow individual departments the opportunity to procure their own recording equipment.

The Solution: Combine the town's needs into an integrated solution whereby each department has its own audio/video recording channels to meet its requirements.

For example:

- Police – 2 interrogation rooms: 2 A/V recording channels
- Mayor/council – 1 room: 1 audio channel
- Planning & zoning – 1 room: 1 audio channel
- Court – 1 courtroom: 4 audio channels

Easy Reporting

The Configuration:

- Veri-Core 8/16 channel Ultra-Scribe Recorder plus Video for DRS
- Compact rackmount computer
- Audio interfaces, microphones and cables, etc.
- Video interfaces and cameras (as required)

Easy Transcribing
